

School Security Solutions

In 2018, among students ages 12–18, there were about 836,100 total theft and nonfatal violent victimizations. Are you keeping your students, faculty, and property safe?

As a school administrator, your first and foremost responsibility is to keep your students safe. Whether you're preventing bullying, after-hours theft and vandalism, gun violence, drug usage and paraphernalia, or monitoring in-class behavior for administrative and operational reasons, security is essential to your school.

Tasked with preventing a wide range of crimes and violence, schools often turn to on-site security guards. However, security guards are costly and have steadily increasing wages, they can't be everywhere and don't see everything. Many schools also install security cameras that keep an eye on every hallway, stairwell, and parking lot. But what good do those cameras do when only a small percentage of security video is ever observed or reviewed?

Watching an incident occur after the fact doesn't help keep your school safe. Fortunately, there's a more comprehensive and cost-efficient solution – live "event-driven" video surveillance from Virtual Guarding.

Schedule Your Demo Today!

Security Features

Loitering

Keep a close watch on who enters & exits your property.

Break-In

Identify and stop forced entry before it occurs.

Vandalism

Keep potential damage away from your property.

Theft

Protect your business assets from theft.

Unwanted

Keep protected areas safe by keeping unwanted visitors away.

Unhealthy

Ensure anyone who enters does not pose a health threat.

Intelligent live video monitoring for schools.

Virtual Guarding provides 360 degrees of security monitoring for school security and the protection of other educational facilities. We begin by establishing an invisible perimeter around your property with our high-definition security cameras, and then monitor those cameras live with our hybrid use of human intelligence and artificial intelligence. These virtual security guards are stationed at our Global Fusion Center to monitor your property 24/7.

Our hardware incorporates advanced features such as immediate live audio trespasser deterrents, remote door monitoring for unsecured entrances and exits. Our 4 step process, developed over years in the industry, enables our agents to respond up to 10x faster than traditional intrusion systems that may not even see incidents occurring until several minutes after they have already occurred.

With this as the new standard for classroom monitoring and security, are you protecting your students, staff, and property effectively as well as identifying opportunities to improve classroom performance? Get a quote today and find out how Virtual Guarding can help.

Our Services

Remote Guarding

- Substitute Guard Anywhere
- Pro-Active Video Monitoring
- Event Alerting and Response
- Guest and Visitor Screening
- Direct Response Or Police Dispatch
- System Health Monitoring
- Door Ajar Monitoring
- Environmental Monitoring
- Reporting

Virtual Gatehouse

- Substitute Guard In Booth
- Pro-Active Video Monitoring
- Event Alerting and Response
- Guest and Visitor Screening
- Direct Response Or Police Dispatch
- System Health Monitoring
- License Plate Verification
- Reporting

- Environmental Monitoring
- Reporting

Four Steps To Get The Security You Need

How It Works

Reduced Operational Costs • Safer – No Physical Contact • 24/7 Security Monitoring and Support
• Deter Crime and Trespassers Proactively • Immediate Response • Enhanced Security

Step 1

Cameras Detect

Cameras stream within seconds using AI to detect potential threats.

Milliseconds

Step 2

Guards Analyze

Remote guards can respond to potential threats instantly using customized SOP's.

5-20 Seconds

Step 3

Rapid Response

Remote guards engage potential criminals with two-way audio.

10-30 Seconds

Step 4

Escalate As Needed

On-site guards or law enforcement are dispatched.
